## COMPUTER SCIENCE - SOFTWARE ENGINEERING STUDENT

Jakarta, Indonesia | +621315935772 | sultan.khudori@binus.ac.id | sultanmukhtar14@gmail.com

A 5th-semester Computer Science – Software Engineering student with a strong passion for software engineering, particularly in web development, database management, and emerging technologies. Gained experience in organization and actively engages in social volunteering activities. Currently serving as the Vice President and concurrently as Head of the Training Division for the Volleyball Club at Binus University, demonstrating leadership, organizational, and teamwork skills while overseeing training programs and ensuring the development of club members. Additionally, I have a strong interest in Artificial Intelligence and Product Development, aiming to create innovative solutions that bridge technology with user needs

### PROFESSIONAL EXPERIENCE

**President – Binus Bekasi Volleyball Club** **Feb 2024 - Feb 2025**

- Managed and coordinated all aspects of club activities, ensuring efficient operations and the development of club members.
- Organized training sessions, competitions, and community events to foster team growth and engagement.
- Liaised with university administration and other regional volleyball teams to facilitate tournaments and collaborative events.
- Contributed to enhancing team performance through well-structured training programs and mentorship initiatives.

### PROJECTS

**DIG IN HIMISFO 2024: SHIELD – BUSINESS IT COMPETITION** **Nov 2024**

- Developed an innovative IT-driven business solution, enhancing operational efficiency, digital transformation, and accessibility through market research, competitive analysis, and strategic implementation. Achieved semi-finalist position among top competitors.

**VsTravel Travel Platform Website – Web & UI/UX Designer** **Feb 2025**

- Designed and developed a responsive travel platform, enhancing user experience with intuitive navigation, seamless booking features, and visually engaging interfaces for travelers.

### ACHIEVEMENTS

- 1st Place – AI Prompting Competition, AORUS Campus Tour 2024
- Semi-Finalist – DIG IN HIMISFO 2024: SHIELD
